EL GCTPFNN S'AFEGEIX A L'ACCIÓ INCIADA PER FRIENDS OF THE EARTH EUROPE I CRIDA A LES PERSONES ECOLÒGICAMENT SENSIBLES DE CASA NOSTRA A ENVIAR E-MAILS DE PROTESTA AL PRESIDENT DELS EUA

Ara mateix tenim la possibilitat d'enviar un e-mail al president del EUA ! i la de rebre una resposta generada automàticament

si us plau escampeu aquest e-mail tant com pugueu, a amics i amigues, a familiars, a companys i companyes de la feina, a casa nostra i a l'estranger, a totes aquelles persones que puguin ser sensibles i responsables de cara a un món sostenible.

SAVE THE CLIMATE TREATY !
SALVEM EL TRACTAT DEL CLIMA !

FLOOD THE GEORGE BUSH WITH YOUR E-MAILS!
INUNDEM EN GEORGE BUSH AMB ELS NOSTRES E-MAILS !

Stop President Bush from betraying the UN climate change treaty!
Impedim al President Bush de trahir el tractat del canvi climàtic!

*Last year the US blocked progress at negotiations in The Netherlands.
Now Texas oil-man President George W. Bush wants to destroy the Kyoto Protocol on climate change.*

L'any passat els EUA varen bloquejar el progrés de les negociacions a Holanda.
Ara l'homenot del petroli Texà, el President George W. Bush, vol destruir el Protocol de Kyoto sobre canvi climàtic.

Friends of the Earth asks people around the world to electronically flood the White House with protest E-mails.

Els Amics de la Terra demanen a la gent d'arreu del mon que inundin electrònicament la Casa Blanca amb e-mails de protesta.

Let's give President Bush a taste of what climate change means and how much people are concerned about it.

Donem-li al President Bush un tast del que vol dir el canvi climàtic i quanta gent n'està preocupada.

=====

Dear President Bush,

I call on you as President of the USA not to betray the Kyoto Protocol.

The United States must live up to its commitment to the UN negotiations to prevent global warming. Sabotaging the Kyoto Protocol puts the USA into a position of environmental isolationism and makes it responsible for climate catastrophe.

The US has the highest per capita CO2 emissions in the world. People around the world already faced with the first signs of climate change, suffering from floods and hurricanes, expect your country to be in the forefront of tackling climate change.

An enormous potential of creativity, innovation and efficiency is there to be harvested once we have decided to really reduce CO2 emission. If you fail to reverse your decision to kill the Kyoto Protocol, future generations will not forgive you.

President Bush, the science is proven and the international political will is there to tackle climate change. The US must join the progressive nations and tackle climate change.

Sincerely,
(poseu-hi la vostra signatura)
